

Zoznam zariadení, po ktorých je dopyt zo strany uzbeckých podnikateľov

№	Direction	Equipment
Automobile industry		
1	Equipment for metal processing	<p>Linear unit construction machines, Boring and milling machines, knee-type milling machines, grinding machines, the accuracy of positioning along any axis of less than 0.01 mm, Honing or lapping machines, gear cutting machines, grinding or gear finishing, forging or die-stamping machines and hammers, presses hydraulic bending machine, edging,</p> <p>Equipment for the production of brake pads, linings</p> <p>Hot press and heat-treating equipment for the production of drum brake pads for passenger cars</p>
2	Electric Welding Equipment	<p>Machines and devices for electric, laser or other light or photon beam, ultrasonic, electron beam, magnetic pulse or plasma arc soldering, brazing or welding;</p> <p>machines and apparatus for resistance welding of metals (automatic and semi-automatic)</p> <p>machines and apparatus for arc (including plasma arc) welding of metals (automatic and semi-automatic)</p> <p>Line for production of welding electrodes</p> <p>Line for the production of welding wire with copper covered and polishing</p>
Food processing industry		
1	Equipment for oil industry	<p>Complete lines for the production of margarines and butters</p> <p>Equipment for the production of mayonnaise, machinery for deodorization of fatty acids, Lines oil extraction, oil refining lines, production lines for packaging finished products, roaster for oil industry</p>
2	Equipment for milk processing	<p>Equipment for the production of dried and condensed milk, condensed cream, yogurt, curds children, hard cheeses and soft varieties</p>
3	Equipment for meat processing	<p>Initial processing of slaughter products (Boxing to stun cattle device for skinning, cutting, shaping and cutting of carcasses)</p> <p>Complete line for the production of sausages and smoked meat products,</p> <p>Technological line for the production of canned meat and pates</p> <p>Lines for production of dumplings, minced meat and other convenience foods.</p>
4	Equipment for processing of fruits and vegetables	<p>Complete lines for the production of fruit puree, candied fruits and baby food.</p> <p>Complete lines of drying fruits and vegetables.</p> <p>Complete production line of potato chips and potato fries. Complete lines fast freezing vegetables. Complete production line concentrates clarified and clarified juice.</p> <p>Complete line of cooking and bottling of juices in bottles, cans and aseptic packaging soft.</p>
5	Refrigerating and cooling equipment	<p>Refrigerating unit</p> <p>Chillers, water cooling units</p> <p>Refrigeration compressor</p> <p>air-cooling apparatus, condensers</p>

№	Direction	Equipment
		air-conditioning and ventilation systems
6	Equipment for bread and confectionery products	Complete line for the production of sand, sugar, and long cookies (including: Feeding flour Kneading, shaping, molding and cutting rotors, Furnaces, Cooling Systems, Sandwich system, glazing, Primary Packaging) Mixers, dough proofer, Mixers with tilter container forming machine for dough Tunnel and rotary furnaces
Light industry		
1	Packing Equipment	High-tech automatic packaging lines . Automatic / semi- bulk products. Automatic / semi-automatic filling and packaging of non-dusting and dusting products. Automatic / semi-automatic multi-component mixtures . Apparatus for filling and packaging of products in bulk (three kg) Apparatus for small packages . Outlet and feed conveyors. Two-strand weighers . Packaging equipment for winding stretch ribbon long products packed in pallets Equipment for the manufacture of nets for packaging vegetables Packaging equipment for souvenirs
2	Equipment for the leather processing	Machinery for preparing, tanning or working hides, skins or leather or for making or repairing footwear or other articles of hides, skins or leather, as well as drums and launches operations liming, tanning and dyeing, fleshing machine, squeezing presses, planing machine, vacuum dryers , atmospheric drying leather belts, grinding and de-dusting machine. Complete line for the production of artificial leather, PVC leather, PU leather, leatherette, leatherette
3	Textile machinery	Spinning equipment , spinning , doubling , winding equipment , textile machinery , finishing equipment , Equipment for the production of non-woven materials , Equipment for the production of chemical fibers , quilting equipment Organization of production of circular knitting machines, Organization of production of sewing , overlock and roving equipment, organization of production of hosiery machines Organization of production of machines for knitted fabric dyeing and textile materials Line for production of textile gloves Equipment for the manufacture of tights
4	Equipment for the production of stationery	Production watercolors, gouache, clay, glue stick, covers for notebooks, folders faylovy, erasers, notebooks school, lineyek, pencils, flamasterov, ballpoint pens and gel, sharpeners, scissors, stationery, speplerov Equipment for the production of book covers (leather, plastic, cardboard)
Construction industry		

№	Direction	Equipment
1	Equipment for the production of construction materials	Manufacturing equipment for concrete products Equipment for the production of aerated concrete products Machines for the production of window systems Equipment for the production of asphalt Production equipment for tile Equipment for the production of heaters Equipment and molds for the production of construction bricks Vacuum forming machine for the production of acrylic baths Equipment for the production of roller blinds Equipment for weaving wire mesh with hexagonal cells, equipment for weaving wire mesh with square holes, equipment for the manufacture of mesh-netting
Medical and pharmaceutical industry		
1	Equipment for the production of laboratory ware	Equipment for the production of laboratory glassware, laboratory glassware, laboratory equipment and laboratory furniture.
2	Equipment for the production of pharmaceutical preparations	Blister machine, capsule fillers, tablet presses, mixers, computing packaging machines, equipment for ampoule production, sealing machine for ampoules.
3	Medical equipment	Equipment for functional diagnostics (ECG, ultrasound, roentgen equipment, etc.)
Heavy industry		
1	Equipment for oil and gas industry	Gas metering point (SCP), gas distribution stations (EMG) unit isolation valves (LRA), gas distribution stations (GDS), Measuring systems, Units for gas (UUG), gas dryers Gas heaters, Electric gas storage compressor stations (CNG) Boiler units modular and stationary execution, pumping stations, drilling and oilfield equipment, automation systems, communications and energy-saving equipment, pumps and pumping equipment
2	Equipment for the production of screw and reciprocating compressors industrial	Equipment for the production of medical oil-free compressors, boosters, Receivers
3	Modern boiler equipment for miniboiler-houses	Mazut preparation equipment, Air collectors, Air heaters, flue gas cleaning and air heating, Economizers, Inserts, Line slag ash removal, Oil-gas burners, boilers Automation
Energy conservation, alternative energy, recycling		
1	Equipment for industrial, construction and municipal solid waste	Equipment for the processing of medical and municipal solid waste treatment facilities, and stoitelnyh waste consisting of: Machines for recycling; - Sorting lines and complexes; - Multifunctional grinders and shredders; Separators (sieve);
2	Equipment for processing plastic	Line for crushing, washing and drying, ABS and PVC plastic Granulation line for PVC plastic Granulation line for ABS plastic

№	Direction	Equipment
3	Equipment for the production of energy saving lamps	Equipment for the production of full-cycle LED lamps
4	Wind turbines, solar panels and biogas plants	<p>small hydropower plants, a micro hydropower plant wind power, solar panels (modules), inverters and solar collectors, water pump solar heat pumps, bio-energy installation, gas generating bioenergy heat and power plants based on solid fuel gasifiers, hydrostatic power plants and power module inverters and uninterrupted power supply</p>
Telecommunication and electro-technical equipment		
1	Printing equipment	<p>Densitometers, spectrophotometers, colorimeters Digital printing machines, copiers and printers, Web offset presses, flexography and gravure printing, screen printing, pad printing and thermic, Cutting: cutters, guillotines and cutters Stitchers, Leaf pickups and binding machines, folders Laminators</p>
2	Electrotechnical equipment	<p>Equipment for the production of microchips Equipment for the production of printed circuit boards Equipment for the production of 3D scanners and printers Programming equipment Complete production lines for netbooks and tablets Equipment for the production of touch screens Complete line for the production of semiconductor products – microprocessors for mobile devices</p>
Equipment for amusement parks		
1	Equipment for amusement parks	Roundabouts, swings, shooting galleries, soft inflatable playgrounds, plastic play set, climbing wall and other attractions.
Agriculture and breeding		
1	Equipment for livestock, poultry and fish	<p>Slaughter plant incubation system, egg grading machine Ventilation equipment, microclimate systems in poultry and livestock buildings; Compact plants and industrial plants for the production of high quality animal feed;</p>
2	Equipment for agriculture	<p>Tractors, mini tractors, plows, potato harvesters, cotton harvesters, equipment for greenhouses (climate control systems, drip irrigation systems, heating and ventilation systems). Equipment for cold storage, including chillers, compressors, coolers and condensers Plate Heat Exchangers, Automation and supplies refrigeration doors</p>
3	Equipment for the production of feed	<p>Equipment for the production of feed for animals, birds and fish Granulator for feed production Line for the production of dry food for cats and dogs Line for the production of combined granular mixed fodders</p>
Chemical Industry		

№	Direction	Equipment
1	Equipment for the processing of polyethylene	Production of plastic and polyethylene tare (canisters, bottles, bottle caps)
2	Equipment for the processing of plastic	Production of PPRC pipes for hot and cold water, toys and other plastic items
3	Equipment for the processing of rubber	Production of car mats, shoes soles, rubberized buttons for electrical appliances
